

Tobacco in Australia

Facts & Issues

Relevant news and research

12.5 Measuring emissions and exposure to tobacco products

Last updated December 2024

Research:.....	2
12.5.1 Measuring tar and emissions from cigarettes using smoking machines	10
12.5.2 Compensatory smoking and other issues with smoking machine methods	11
12.5.3 Development of best practice in measuring chemicals in mainstream cigarette emissions. 14	
12.5.4 Measuring emissions in sidestream smoke, secondhand and thirdhand cigarette smoke ...	15
12.5.5 Measuring emissions from other types of tobacco products.....	18
12.5.5.1 Cigars.....	18
12.5.5.2 Roll-your-own cigarettes.....	19
12.5.5.3 Waterpipes.....	19
12.5.5.4 Bidis.....	20
12.5.5.5 Kreteks	20
12.5.5.6 Smokeless tobacco.....	20
12.5.6 Biomarkers of tobacco smoke exposure and damage.....	21
12.5.6.1 Detection of chemicals from smoke and their metabolites in the body	43
12.5.6.2 Biomarker detection in different regions of the body.....	44
12.5.6.3 Biomarkers for detection of damage and disease risk	49
12.5.6.4 Biomarkers for the detection of specific chemicals from smoke	50
12.5.6.5 Advantages and disadvantages of biomarkers	52
